Dear parents/guardians,

Ysgol Sant Curig have decided to use Hwb and Teams to share home activities with your child. This will also be a means of completing work should we be in a position where pupils need to continue learning from home. **It is also important to note that Hwb works on a variety of devices including phones, ipads and laptops. You simply have to type the following address into an internet browser <https://hwb.gov.wales/>. You can also download the 'Teams' app onto your phone (Android or Apple). Please look for the following icon;**

What is Hwb?

Hwb is an online platform funded by the Welsh Government. It gives teachers and learners access to a wide range of bilingual digital tools and resources that support teaching and learning. By using Hwb, your child will benefit from online access (through a web connected device) to educational resources including Microsoft 365, Encyclopaedia Britannica, Just2easy, Flipgrid and much more. There is no cost to using Hwb and the use of these educational resources are fully supported by the Welsh Government.

What happens if there is another lockdown?

The Welsh Government believes that it is important that every learner in maintained schools in Wales have full access to Hwb in case there is another lockdown or if a classes (a bubble within school) have to go into isolation. In order to continue with teaching, it is vital that the children use Hwb and Teams whilst they are at home.
